

Speco Cloud App

User Guide

1. Download the Speco Cloud App.

Download the Speco Cloud app from the Apple App Store for iOS® devices or the Google Play Store for Android™ devices.

2. Open the App.

After downloading, open the Speco Cloud app. The login screen will appear.

3. Login.

Enter the cloud login credentials and click the **Log In** button. Once logged in, a list of cameras is displayed on the screen.

4. View Cameras.

Select the camera you want to view. This will open the camera's mainstream feed, where playback options can be accessed.
